UNDER THE CHEMISTRY LECTURE SERISES

LECTURE BY N.N.ROGHELIA ON

“THE SCIENTIFIC THINKING”

2018-2019

The advancement in the field of chemistry has been changing day by day and to keep a track with it our college always arranges different seminars, workshops and lectures in the college. Among them there was a lecture series by N.N. Roghelia on ‘The Scientific Thinking’, organized by the chemistry department of the college. In that , total 163 students have attended it among which there were 121 girls and 42 boys. The students have attended it with keen interest and the speaker has given a very useful information to them. Through such lectures, the principal Dr. Vikas Desai always provides a great platform to the students which prove a successful one for their future.

Vikas Desai
